

Contents

Preface		iii
Members of the Advisory Board		iv
Domination in Hypergraphs II. New Directions	<i>B. D. Acharya</i>	1–18
Chain Decompositions of Normalized Matching Posets of Rank 2	<i>Andrew Pearsall and Shahriar Shahriari</i>	19–32
On 1-Well-Covered Graphs	<i>Arthur S. Finbow and Bert L. Hartnell</i>	33–44
New Challenges in the Theory of Hypergraph Coloring	<i>Gábor Bacsó, Csilla Bujtás, Zsolt Tuza and Vitaly Voloshin</i>	45–57
A General Approach to Distance-Two Colouring of Graphs on Surfaces	<i>Jan van den Heuvel</i>	59–67
Graceful Labelings of Unicyclic Graphs	<i>Jay Bagga and Adrian Heinz</i>	69–79
The Spectra of Super Line Multigraphs	<i>Jay Bagga, Robert B. Ellis and Daniela Ferrero</i>	81–89
Out-Branchings with Extremal Number of Leaves	<i>Jørgen Bang-Jensen and Gregory Gutin</i>	91–99
Stability of Irregularity Strength on tK_4 and $K_1 \cup C_n$	<i>K. M. Kathiresan and K. Muthugurupackiam</i>	101–108
Some Inequalities for Imbalances in Oriented Graphs	<i>Merajuddin and Madhukar Sharma</i>	109–117

A Note on Weak Chain-Completeness and Fixed Point Property for Pseudo Ordered Sets	<i>S. Parameshwara Bhatta and Shiju George</i>	119–123
Connectivity of Random Addable Graphs	<i>Paul Balister, Béla Bollobás and Stefanie Gerke</i>	125–132
Variations of Graph Coloring, Domination, and Combinations of Both: A Brief Survey	<i>Renu Laskar, Jobby Jacob and Jeremy Lyle</i>	133–152
Directionally n -Signed Graphs	<i>E. Sampathkumar, P. Siva Kota Reddy and M. S. Subramanya</i>	153–160
3-Consecutive Vertex Coloring of a Graph	<i>E. Sampathkumar, M. S. Subramanya and Charles Dominic</i>	161–170
Recent Developments on the Structure of Cartesian Products of Graphs	<i>Sandi Klavžar</i>	171–177
Not so Easy Problems for Tree Decomposable Graphs	<i>Stefan Szeider</i>	179–190
List Hereditary Colorings of Graphs (Extended Abstract)	<i>C. R. Subramanian</i>	191–205
Matrices in the Theory of Signed Simple Graphs	<i>Thomas Zaslavsky</i>	207–229
On Cordiality of One Point Unions and One Edge Unions of Some Classes of Graphs	<i>Ujwala Deshmukh and N. B. Limaye</i>	231–241
Some Cycle Related Cordial Graphs in the Context of Vertex Switching	<i>S. K. Vaidya, Sweta Srivastav, V. J. Kaneria and Kailas Kanani</i>	243–252
